

Core for Health Science Programs

For colleges and universities preparing the next generation of health science professionals, our comprehensive ed tech suite eliminates complexities while providing an unmatched user experience.

ABOUT CORE

With our software that simplifies, savvy support team and scalable solutions, hundreds of health sciences programs trust CORE to help manage their experiential/clinical education and student assessment and career readiness needs.

Software that Simplifies

Simplify your experiential and clinical education programs and student assessment processes by driving efficiency, transparency, communication and tracking across them. Our easy to use web and mobile based platform supports both learners and administrators.

Savvy Support Team

Our support team is with you every step of the way - from implementation to training to helping you with the day to day. Get a white glove experience all at no additional cost to you! With clinicians on staff, we are familiar with the nuances of health science programs.

Scalable Solutions

Invest in a platform that is scalable across all your health sciences programs and eliminate the need to have unique solutions for Nursing, Pharmacy, PT, PA, OT, etc. Our ed tech suite is built to accommodate the needs of various experiential and clinical education programs.

SOFTWARE THAT SIMPLIFIES

Our software that simplifies and scalable solutions help you:

- 1 **Manage Clinical/Field/Fieldwork Education**
- 2 **Manage Student Competency Assessment Processes**
- 3 **Enable Students to Showcase their Achievements**
- 4 **Develop Students Soft Skills with Supplemental Learning Tools**
- 5 **Recruit Students**

Manage Clinical/Field/Fieldwork Education

Improve departmental efficiency, enhance communication and elevate the student experience by managing the entire clinical/field/fieldwork process within one comprehensive and purpose-built application - **ELMS**

CORE[®]
ELMS

Manage Student Competency Assessment Processes

Easily build and maintain your curriculum map, efficiently manage and report on student competency assessments, and track performance with course and faculty evaluations with **CompMS**

CORE[®]
CompMS

Enable Students to Showcase their Achievements

Help your students stand apart, tell their story, establish credibility, and strengthen professional relationships by building and maintaining a custom and comprehensive easy to use ePortfolio with **MyCred**

MyCred[™]
INFORM & INSPIRE

Develop Student Soft Skills with Supplemental Learning Tools

Get your students career ready by helping them improve soft skills, market knowledge, and patient communication skills with **READINESS**

CORE[®]
READINESS

Recruit Students

Amplify your recruiting efforts by offering prospective students a custom-branded and interactive career center to engage, excite, and educate on where a pharmacy degree can take them with **RECRUIT**

CORE[®]
RECRUIT

CLIENT SATISFACTION RESULTS

Highlights from our most recent client satisfaction survey.

How long has your program been working with CORE?

Why did you choose CORE?

CLIENT TESTIMONIALS

Hear why 99% of customers would recommend CORE.

"As a **large institution with several campuses and multiple programs**, we require a software system that is flexible, customizable, and robust. The level of capabilities and features within **CORE checks all these boxes and supports our multiple programs efficiently**.

The process of managing all the moving parts of **4 different programs** would be significantly more challenging without the help of CORE. Their team is truly committed to a **strong partnership** and continues to **exceed our customer service expectations**."

Segar Annamalai, Chief Information Officer
American Career College / West Coast University

"The CORE team members involved in our onboarding, training, and ongoing support are **always available to provide hands-on, one-on-one attention**. Whether you're a newly developed program or a program looking for a change, **the personalization that CORE offers every client is likely the industry leader**. We have been ecstatic with CORE, its features, and its team. **Their attention to the individual needs of our program is unmatched**."

Dr. Trey Boyd, Former DMSc, PA-C, Clinical Director | Assistant Professor
Presbyterian College. Physician Assistant Program

"As someone who **oversees multiple programs across the university**, CORE has allowed us to have **one consistent system** running across all of our programs. Our processes are so much more **efficient**, we're able to more **easily communicate**, and we're taking a lot of the duplication out of our day-to-day processes."

Dr. Tricia Berry, Former Associate Dean and Director of Clinical & Practicum Programs,
Purdue University Global

"CORE is going to be **a huge help to our OT program**. The team at CORE has been incredibly helpful in listening to our feedback and ensuring their fieldwork management software will make the process easier for our OT program. I am excited for others to try it!"

Mechelle Collins-Faria, MS, OTR/L, Academic Fieldwork Coordinator & Assistant Professor
Long Island University Department of Occupational Therapy

"Before the CORE team built out a new report feature for our program, it was near impossible to easily track our clinical requirements. So much data was being captured in our case logs, but too much time was required to manually pull and format the data for accreditation reporting. **This new functionality in CORE ELMS makes their system near perfect**.

I used another system prior to CORE that was just OK, but it did not provide as many benefits and tools as CORE does for our program."

Richard Bassi, MMSC, MED Program Director Anesthesiologist Assistant Program
Indiana University School of Medicine
