CORE FOR PHARMACY

For colleges and universities preparing the next generation of pharmacy professionals, our comprehensive ed tech suite eliminates complexities while providing an unmatched user experience.

ABOUT CORE

With our software that simplifies, savvy support team and scalable solutions, Pharmacy programs trust CORE to help manage their experiential education and student assessment and career readiness needs.

Software that Simplifies

Simplify your experiential education programs and student assessment processes by driving efficiency, transparency, communication and tracking across them. Our easy to use web and mobile based platform supports both learners and administrators.

Savvy Support Team

Our support team is with you every step of the way - from implementation to training to helping you with the day to day. Get a white glove experience all at no additional cost to you! With clinicians on staff, we are familiar with the nuances of health science programs.

Scalable Solutions

Invest in a platform that is scalable across all your health sciences programs and eliminate the need to have unique solutions for Nursing, Pharmacy, PT, PA, OT, etc. Our ed tech suite is built to accommodate the needs of various experiential and clinical education programs.

SOFTWARE THAT SIMPLIFIES

Our software that simplifies and scalable solutions help you:

MANAGE EXPERIENTIAL EDUCATION PROGRAMS WITH CORE ELMS
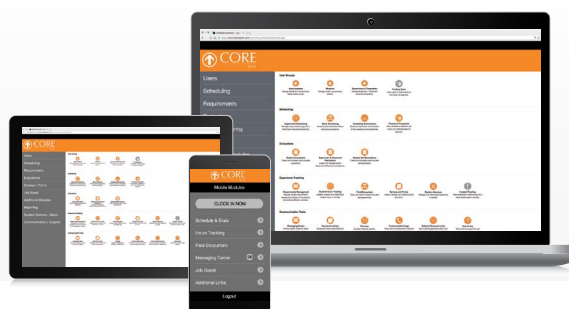

Improve
departmental
efficiency

Enhance
communication

Elevate
student
experience

Improve departmental efficiency

1

- Easily track, manage and report on experiential education evaluation data

- Ensure students are compliant before beginning their rotations by tracking their requirements

- Track and report on everything you are doing in the system (such as rotation assignments & availability, evaluation results, student hours, requirements compliance, incidents, etc)

- Easily manage experiential education with our scheduling tools

- Manage and track site contracts all in one location

Enhance communication

2

- Communicate directly with Preceptors,CIs, Supervisors and Students through one central communication hub, while also managing and tracking all those interactions

- Utilize evaluations, surveys, and electronic forms to measure key metrics such as graduate and placement rates, employment verification, etc

Elevate student experience

3

- Review experiential education evaluations, enter and maintain experiential education experiences, encounters and hours all in one place

MANAGE STUDENT COMPETENCY ASSESSMENT PROCESSES WITH COMPMS

✓ Easily build and maintain curriculum map
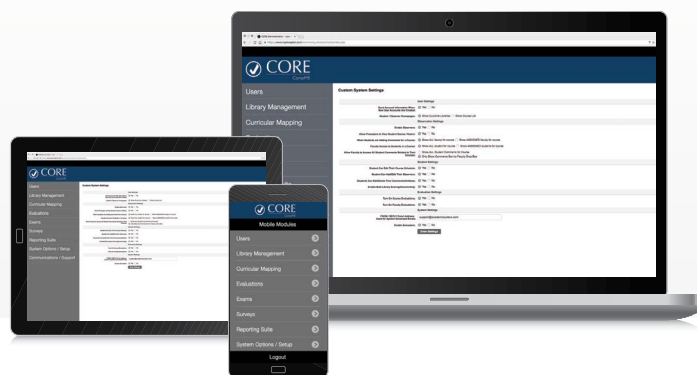

✓ Efficiently manage student competency assessment

Easily build and maintain curriculum map

1

- Identify and map outcomes, competencies, and objectives

- Analyze where and how items are being taught and how they tie back to accreditation standards

Efficiently manage student and faculty assessments

2

- Allow students to upload evidence they are meeting and practicing outcomes and competencies

- Enable faculty to review, evaluate, and respond to student submissions

- Report on student progress longitudinally over the curriculum

- Build and manage course and faculty evaluations and distribute to students
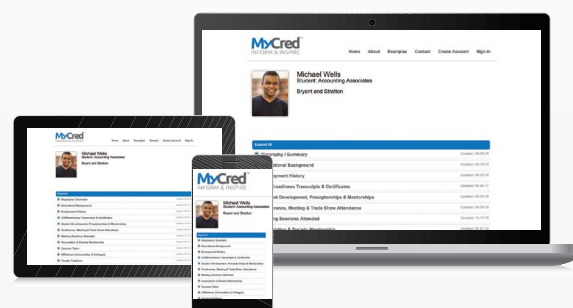

ENABLE STUDENTS TO SHOWCASE THEIR ACHIEVEMENTS WITH MYCRED

Students can easily and digitally present their profile

1

- Showcase educational and professional achievements including cases and case logs, competency assessments, educational background, employment history, committees and boards, etc

DEVELOP STUDENTS SOFT SKILLS WITH SUPPLEMENTAL LEARNING TOOLS WITH READINESS

1

Easy to use online learning platform

- Create and share "playlists" of activities
- Enables mobile learning

2

Support the preparation and training of students and healthcare professionals

- Activity based learning including professionalism skills, medication management, soft skills, technology, patient counseling
- Competency based assessments

RECRUIT STUDENTS

1

Drive engagement with prospective students

- Educate prospects on 15+ pharmacy settings/career paths.
- Host your own content on the platform

2

Collect key data from prospective students

- Collect contact, engagement, and survey data on prospective students

CLIENT TESTIMONIALS

"CORE helped streamline and make our processes so much more efficient. We're able to do things within one single system instead of jumping from system to system, we're able to more easily communicate and we're taking a lot of the duplication out of our day-to-day processes."

Dr. Hope Bauman,
DNP Practicum Manager Purdue University Global Lincoln, NE

"Switching to CORE was an easy decision. CORE had the best value, and exactly what we were looking for in terms of support. The CORE team has been with us every step of the way, providing training for us so that we felt comfortable once we were rolling it out to our students, faculty, and preceptors."

Dr. Megan Leeds,
Pharm.D., BCACP Director of Experiential Education Regis University, School of Pharmacy Denver, CO

We really needed to have one system that met our needs. We purchased CORE because we saw the value of having the technological support, but more importantly it's very convenient for our students to actually use CORE and the way it's integrated together.

Dr. Ruth Ford,
EdD, MSBS, OTR/L Associate Dean of Health Sciences Huntington University, Doctor of Occupational Therapy Huntington, IN

We recently went through an accreditation site visit and CORE was the focus of many discussions by the site visitors. The examiners were extremely impressed with CORE's utilization in supporting the site visit process.

Dale R. Turley,
PA-C MMS NCCPA CAQ Assistant Clinical Coordinator Lake Erie College, Physician Assistant Program Painesville, OH
