SAVVY SUPPORT TEAM

SAVVY SUPPORT TEAM

Our support team is with you every step of the way - from implementation to training to helping you with the day to day. Receive a white glove experience all at no additional cost to you! With clinicians on staff, we are familiar with the nuances of health science programs.

CORE'S IMPLEMENTATION & CLIENT SUPPORT MODEL

1 Over **70%** of our clients switched to CORE after using EValue, PharmAcademic, Typhon, or Exxat

2 Each program is provided with a client success specialist who learns the ins & outs of your process and is available to you **as often as needed**

3 Nearly **60%** of our clients use at least 2 CORE products

4 To date, we've successfully implemented over **350** programs onto the CORE platform

5 Our team answers all questions or requests within **24 hours**, but more often you receive an answer that same day

6 Implementation, training, and on-going client support are **never an additional cost**

7 **94%** of clients said in a survey that the process of switching to CORE was not difficult

IMPLEMENTATION STAGES

STAGE

PRE-IMPLEMENTATION

Our implementation team will review goals, schedules, and projected timelines so expectations are set accordingly.

1

DATA COLLECTION & TRANSITION

Our team moves all of your existing data into the CORE ELMS system and configures your account.

2

ADMINISTRATOR TRAINING

We provide one-on-one training to your team through personalized training calls and regular check-ins.

3

GO-LIVE

We partner with you to ensure a seamless go-live for your student preceptors, Adminstrators and insitutional partners.

4

TRANSITION TO CLIENT SUCCESS

Our support continues beyond implementation. Your dedicated client success specialist continues daily support as needed.
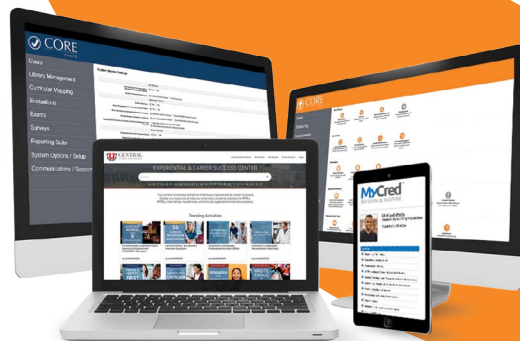

5

HOW CORE'S PRICING MODEL STACKS UP AGAINST THE COMPETITION

With our software that simplifies, savvy support team and scalable solutions, hundreds of health sciences programs trust CORE to help manage their experiential/clinical education and student assessment and career readiness needs.

As Dean, I have worked with CORE Higher Education Group at two different colleges of pharmacy.

The team at CORE truly listens to client feedback and goes above and beyond to ensure their technology is serving clients as efficiently as possible. I always feel as though the success of our program is their top priority. Between the responsiveness of the client support team, the dedicated attention given to our unique program needs, and the personalization this platform offers, CORE continues to exceed my expectations as a software provider."

Ron Jordan, R.Ph, FAPhA Dean Chapman University School of Pharmacy

Utilization of CORE by students, preceptors, and faculty has been a seamless and significant change from the previous software. Our program is ecstatic with choosing CORE and the advances we have made and it has proven to be very successful in our daily operations.

We recently went through an accreditation site visit and CORE was the focus of many of the discussions by the site visitors. The examiners were extremely impressed with CORE's utilization in supporting the site visit process."

Dale Turley, PA-C MMS NCCPA Assistant Clinical Coordinator Lake Erie College Physician Assistant Program

There are many different ways that CORE has helped us for the better. We kept hearing so many great things about the customer service with CORE, and that has turned out to be true. They also have a great reporting system and the ability to communicate easily with various preceptor types. We have had a smooth transition and we've been learning a lot of new things we can implement to make our program work even smoother."

Nicole Gattas, Pharm.D., BCPS Assistant Director, Office of Experiential Education University of Health Sciences and Pharmacy in St. Louis
